NON-CONFORMANCE REPORT

Date: 2025-12-01

Location:	AL QUSAI STORE		
Date:	2025-12-01	NC No.:	
Issued to:	AL ASDAKAA RESTAURANT	Issued by:	QC
Reference	☒ In-house QC ☐ Customer Complaint ☐ Internal Audit ☐ External Audit		

Nonconformance/Report Details	Meat consignment was transported in a private passenger car (saloon) without any temperature control or basic hygiene conditions, which is not in line with company procedures and halal / food safety transport requirements (cold chain and proper meat transportation conditions).
Corrective Action	Immediately stopped allowing loading of meat consignments into private non-refrigerated cars, and instructed staff that all chilled/frozen meat must only be dispatched through approved clean refrigerated vehicles with temperature control. Staff will be briefed and re-trained on meat transportation, cold-chain, and halal requirements, and the procedure will be updated to clearly prohibit such practice and to require vehicle verification before loading.

CORRECTIVE ACTION REPORT

Report Date: 2025-09-01

Report Date	2025-09-01		
Department involved	STORE		
Initiated by	QA		
Origin of non-conformity	DXB		
CAR Completed date	2025-09-01		
Details of Non-Conformity	The customer complained about the weight that there is different between the actual weight on the driver scale and the weight in the invoice		
Root Cause(s) of Nonconformance			
Corrective Action	- Investigate and verify the accuracy of both scales (driver's scale and invoicing system). - Check for any inconsistencies in weighing procedures. - Adjust invoice weight to match actual weight if error found. - Communicate with customer and provide corrected invoice if needed. - Review and improve internal processes to prevent future discrepancies.		
Action taken to prevent recurrence	- Calibrate scales regularly: Schedule periodic calibration and maintenance of all weighing scales. - Standardize weighing procedures: Ensure consistent weighing methods across all locations. - Double-check weights: Implement a system for verifying weights before invoicing. - Train staff: Provide training on accurate weighing and data entry practices. - Internal audits: Conduct regular checks to ensure compliance with procedures.
